Subject: Exclusively for XO Customers: Save 25% on XO Dedicated Internet Access

XO High Speed DIA over Ethernet

CONDUCT MORE

Dedicated Internet Access (DIA) delivered over Ethernet simplifies your network management, increases cost efficiency and equips your business with reliable high-speed Internet access.

POWERFUL

Increase productivity with the capability of transferring large data files such as high quality video conferencing, robust applications, and high speed data transfer on a single network.

FLEXIBLE

XO's scalable solutions and guaranteed 10 Mb bandwidth keep pace with your growing business and peak demands.

VALUABLE

Using your existing infrastructure eliminates the need to invest in new equipment. This translates to a lower per megabit cost over comparable services.

PAY LESS

25% OFF

10 Mb Dedicated Internet Access*

FREE BLUETOOTH SPEAKER

For a limited time, customers upgrading to high speed DIA over Ethernet will receive a FREE Bluetooth Hands-free speaker** (a value of \$129)
